

BOIL WATER NOTICE

Loss of pressure in Hyde Park Mobile Manor
(name of Public Water System)

BOIL YOUR WATER BEFORE USING

Bring tap water to a rolling boil, boil for one minute, and cool before using. Or use bottled water certified for sale by the New York State Department of Health. Boiled or bottled water should be used for drinking, making ice, washing dishes, brushing teeth, and preparing food until further notice.

This Boil Water Notice applies to Front portion of mHP.
(describe area or attach map)

What Happened ?

At about 9 AM (time) on 12/25/23 (date) the water system lost pressure due to well pump failure. When water mains lose pressure it increases the chance that untreated water and harmful microbes can enter your water.

Harmful microbes in drinking water can cause diarrhea, cramps, nausea, headaches, or other symptoms and may pose a special health risk for infants, some elderly, and people with severely compromised immune systems. But these symptoms are not just caused by microbes in drinking water. If you experience any of these symptoms and they persist, you should seek medical advice.

What is being done ?

Well pump was pulled and replaced
(describe corrective actions)

It is likely that you will need to boil water for the next 9 days 0 hours until the problem is fixed. You will be informed when tests show that you no longer need to boil your water.

For more information, please contact:

Wendy Gurskey of the Hyde Park Mobile Manor
(name of person) (name of Public Water System) (phone number)

or the DCDOH at 845-486-3404
(County/District Office) (phone number)

Please share this information with other people who drink this water, especially anyone who may not get this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
